

POWERING YESTERDAY, TODAY & TOMORROW

Powerserve remain totally independent and are fully committed to providing our customers with the same high quality of service. We utilize OEM sourced parts where available in all our products and services offered. In addition, we incorporate a full reverse engineering capability which can be called upon to keep your valuable assets working at all times.

WE ARE EXPANDING AND WISH TO ANNOUNCE THE FOLLOWING:

- New improved premises with enhanced facilities to meet all your engineering requirements.
- “Total Tapchanger Solutions” alliance with Fundamentals Ltd & Ferranti Tapchangers Limited.
- Control Gear & Protection service providing fault diagnosis and modernisation of existing assets.
- Ability to repair, refurbish, upgrade & build complete Tapchangers and Off Circuit Tapping Switches.
- Site services capability including routine maintenance, life extension and retrofitting solutions.
- Supply of HV components including Isolators, Sectionalisers, Switchgear, ABSD's & Earth Kits.
- Consultancy service including advice on maintenance strategies and supply of parts/overhaul kits.
- Technical & Training Services offering a range of guidance on your Substation equipment.
- Transformer accessories including Cable Boxes, Bushings, OTI/WTI and many other ancillaries.

EQUIPMENT SUPPORTED BY POWERSERVE

We are able to support a vast range of High Voltage equipment from many manufacturers including:

TAPCHANGERS

ABB types UZE, UZF, VUBB, UBB, VUCG, UCG, VUCL, UCL, VUCC, UCC, VUCD and UCD
AEI/English Electric types M31, M32, M33, M51, M52, M54 and M56
AEI types L, S21, 3S21, S31, M21 and 2M21
Associated Tapchangers types AT, AE, ASD, AMD, AN, AG and Quadrature Booster
BET/Allen West types TC033, TC066 and LS
Brush type HSR
BTH type ATC range
Crompton Parkinson types SDA, MDA
English Electric types Reactor types (Dial3), FDA, FDB, FDC and FDD
Ferranti types DC3, DS2, DS5, DS300, DS400, DS500, ES3, ES3/19, EC4, FC4, FC6, GC6, GC12,
Ferranti types HR6, HR12, HD12, HD14, FL6, FL12, ST and Rotary
Fuller types F, FBA, H, EH, HD and HS
GEC types J, SD and MD.
Hackbridge & Hewittic type XC033
Maschinenfabrik Reinhausen (MR) types C, M, R, T, V, Vacutap
Met Vick types LBT and LCT

SWITCHGEAR

AEI types JB424, JB426 and JB427
AEI/GEC types BVP17 and BVRP17
AEI/GEC types OFA11, OFA12, OD11A, OD12A, KNA 4, KNA 8, KNA12, KNA16 and KNA 20
Brush types VSI, VBA and VBAD
Cooke & Ferguson types OF5
Crompton Parkinson types ALA, ALB and OE5
English Electric type OKM4
Ferguson Palin 132Kv Switchgear
GEC types VLP9 and VLP15
J.G Statter AC1 and AC01
Met Vick types V1R, H1R and various SB series
Reyrolle types LMT2, LMT23, L42T, L800 and L1000
Reyrolle C series and type OYT
Reyrolle type OBYR14
Switchgear & Cowan A4, A51, A71 and K11
Yorkshire Switchgear So-Hi and IVIF13
